

Start your career with Selective Travel Management

Bhagyashree Mandavkar
Business Travel Consultant

I've been working with Selective for 8+ years and I've had tremendous personal and professional growth during this time.

My favourite thing about working at Selective is the incredible opportunity the company has given me for growth and advancement. They've seen my potential and encouraged me to develop it by trusting me with additional responsibilities and letting me own tasks and projects. I've found all selective colleagues to be very helpful and approachable. Not to mention some colleagues are very dear friends.

All staff were given the opportunity to enrol for professional courses with SERC to further advance in their career and prepare for additional challenges along the way.

I love working for Selective because of the people, the opportunities and progression it has provided me in my 6 years with the company.

I started with the company in late 2015 as a Junior Consultant. The company regularly provided training opportunities for me to develop... from GDS training, product knowledge and account information... to help better my overall knowledge and experience for a better customer service.

Fast forward 6 years later I'm working full time from home and I'm now my team's supervisor, helping new comers, management, accounts and my own team.

Jennifer Fletcher

Business Travel Consultant

Having worked for the company for nearly 18 years, it's safe to say I enjoy what I do. I have built up a great relationship with clients and colleagues over the years and this makes it easy to enjoy my role within Selective Travel.

Each day is different with new challenges and learning every day. Over the course of my career, I have worked in both our Retail & Corporate Division and have seen the company grow from strength to strength over the years. This has taught me a lot of different areas of travel and enabled me to develop the skillset I needed.

We have a lot of experienced staff and in house training so there is always a chance to evolve within your team and further your knowledge and experience for progression within the company when possible. Everyone is super friendly and always on hand to assist should you need. Team work is one of our core values, you are never alone. Some days are more challenging than others, but this is what makes you more confident within your role, which can only be a positive thing.

With the chance of Familiarisation trips, I have been very fortunate to experience some fantastic places, Abu Dhabi, LA, Dubai and most recently Chicago to name a few. These kind of trips give you an insight into the products which you are selling and drives you to do the best you can when you return to share your knowledge with your team and clients. Also, with our charity contributions for various charities, you get to create experiences which you may not have ever considered. I have completed a Sky Dive to raise monies for Cancer Research, this is something I never thought I could do, but with the support of the company, I did it!

Some of my colleagues over the years have become some of my closest friends, it really is like a family.
